

# ae Aston Entrepreneurs

Imagine being part of a management team trying to uphold the 200-year-old reputation of a company that has gone from a successful global brand to basket case.

What do you do?

Find out how to be a leader in these challenging times from the man who turned **£1 into £200 million**.

Nick Sanders' career began as an undergraduate apprentice at Rolls Royce where he worked on the civil engine product support and engine development projects. Later, Nick was the CEO of the very successful CompAir Group where he led the business to one of the greatest turnarounds in history.
